Status

Status reporting allows clients to monitor the status of a given task.

Table 1. Status Attributes

Attribute	Type	Description
<code>status.message</code>	String	Human readable status message
<code>status.percentage</code>	Float (0..100)	Percentage complete (0=not started, 100=finished)
<code>status.rate.average</code>	Float	Average rate of progress
<code>status.rate.current</code>	Float	Current rate of progress
<code>status.rate.units</code>	String	Units (e.g. MB / s)
<code>status.work.completed</code>	Float	Work completed
<code>status.work.remaining</code>	Float	Work remaining
<code>status.work.units</code>	String	Units (e.g. MB)
<code>status.time.start</code>	Date/Time	Start time
<code>status.time.finish</code>	Date/Time	Finish time (may be an estimate)
<code>status.time.remaining</code>	Time	Remaining time (may be an estimate)
